the application

WHAT WE ARE WORKING ON

SECURE

User authentication
login/logout feature

ACCESSIBLE

All students enrolled with
SDS and those who want to
use MEAP outside SDS but
within TUT environment

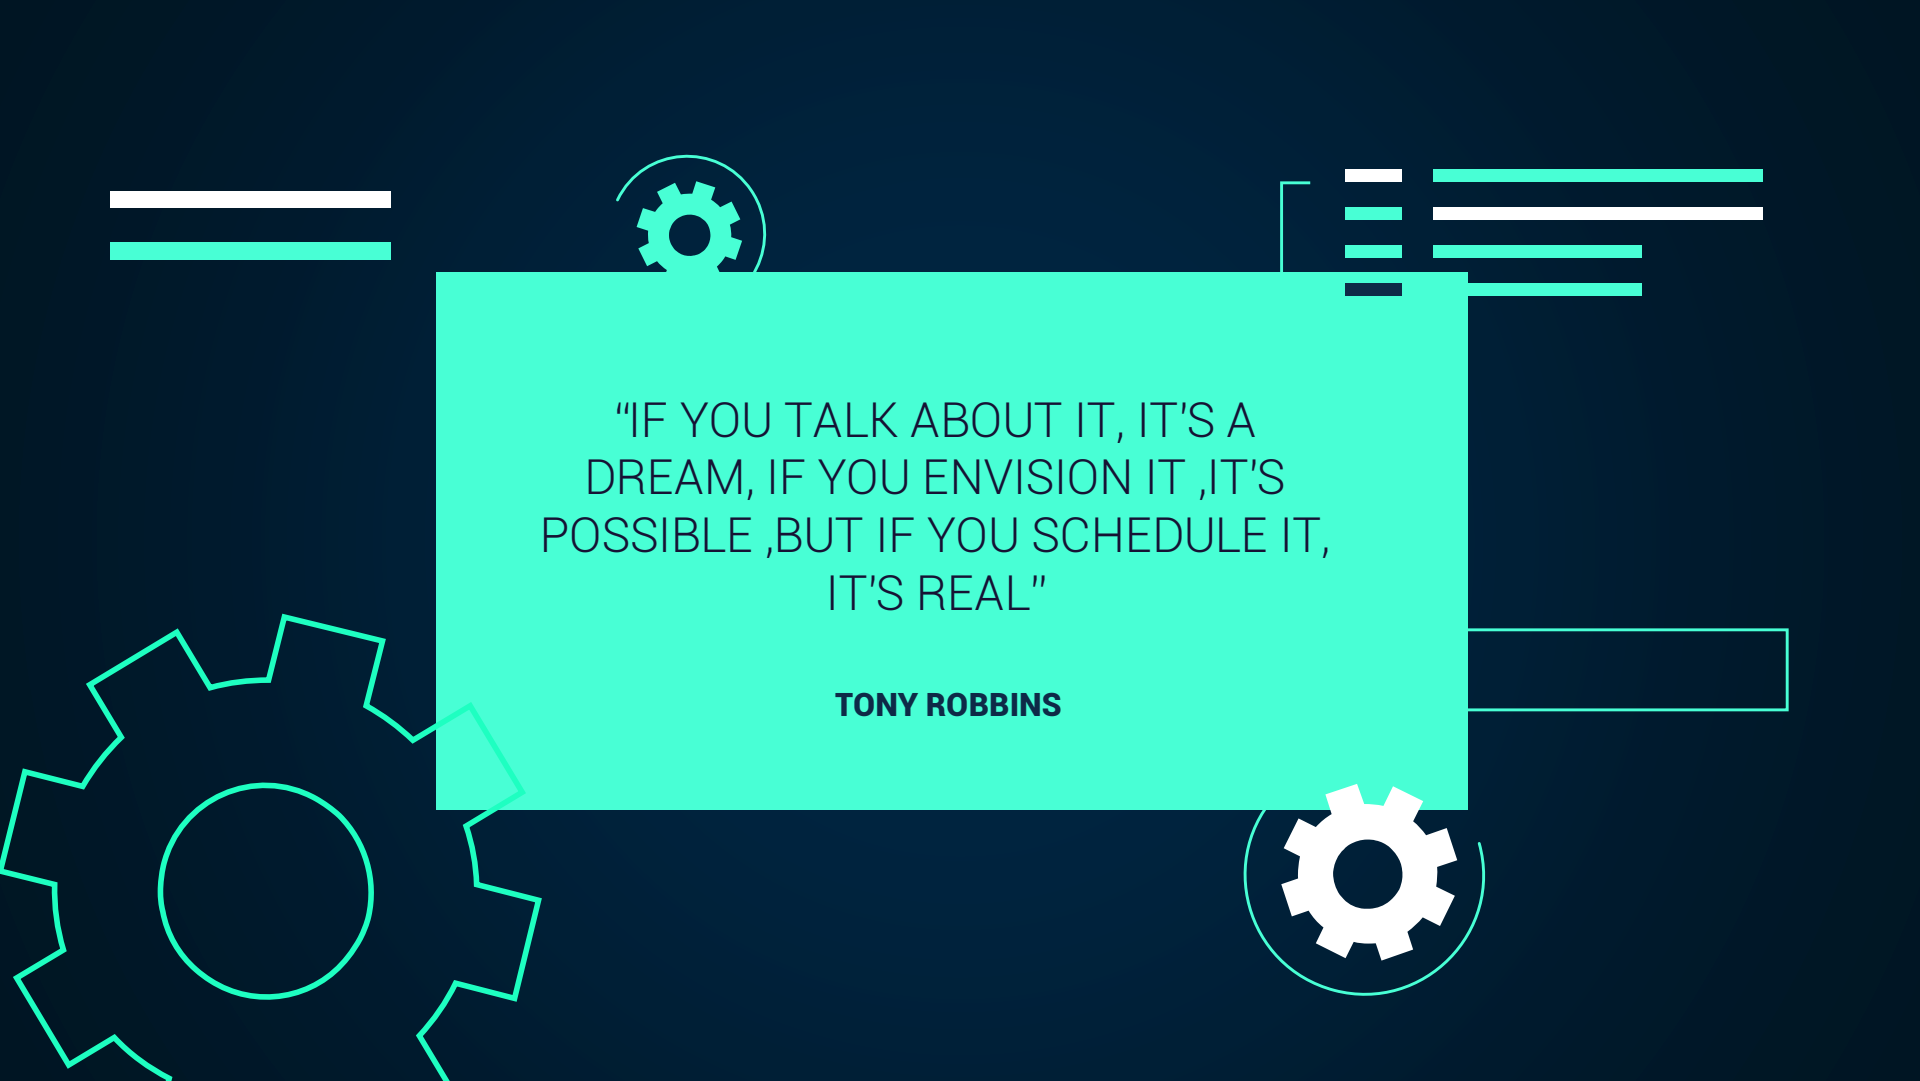

FAST AND RELIABLE

**With proper wifi/mobile
data access great
reponce time should
not be a problem**

ABOUT THE PROJECT

Meap is a schedule generator web application that not only keeps track of tasks and classes that students need to attend but it connects SDS personnel to each student and they can keep track of each student to see any patterns and changes in their routine

"IF YOU TALK ABOUT IT, IT'S A
DREAM, IF YOU ENVISION IT ,IT'S
POSSIBLE ,BUT IF YOU SCHEDULE IT,
IT'S REAL"

WEB DESIGN

OUR GOALS

USABILITY

Navigating through several pages to access all menu options. Access path on reference links that may point to any additional information,

The use of drop down menu options and button click functionality.

POSITIONING

Target audience is currently SDS students and non-SDS students

We wish our app to be used not only daily but on a timely basis

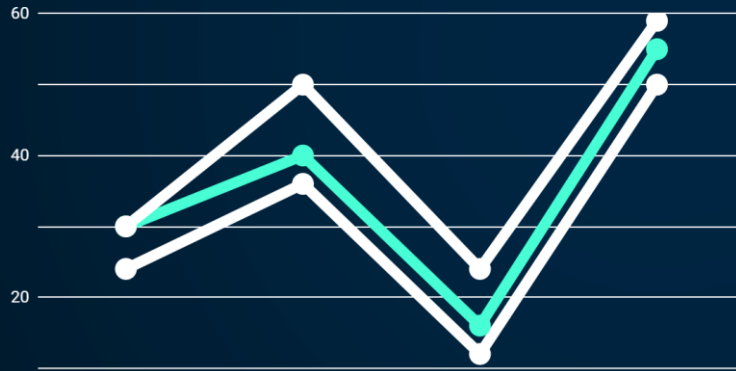

EXPANSION

Allow users from other companies to make use of MEAP

PREDICTED RESULTS

The screenshot shows the 'Student Details' page of the SDS system. It includes a navigation bar at the top with links like 'About Us', 'Contact', 'Videos', and 'Mentors'. On the left, there's a sidebar with a student profile icon and a search bar labeled 'Student ID' with a placeholder 'Student Number'. Below this are input fields for 'Full Name', 'Session Date/Day', and 'Session Time', along with buttons for 'View Booked Sessions' and 'View Weekly Report'. The main content area features a table of student entries with columns for Student Number, Phone Number, Email Address, Date Of Birth, Name, Surname, and Campus. A search bar on the right is labeled 'Search: ema'. At the bottom, there's a footer with '© All Right Reserved MEAP'.

Student Number	Phone Number	Email Address	Date Of Birth	Name	Surname	Campus
